

Alternative Recovery Positions for the Conscious Casualty

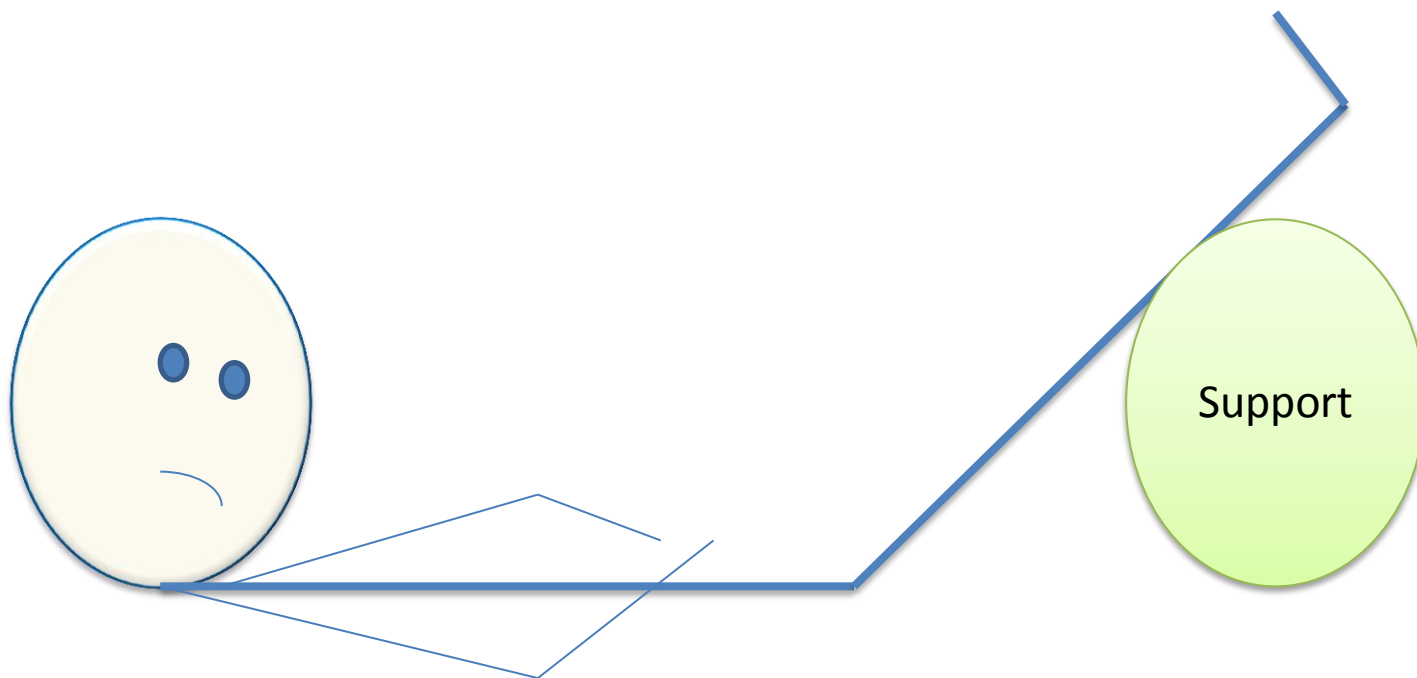

“If the face pale we’re going to raise the tail,

If the face is red we’re going to raise the head.

Position 1 is best unless it’s head or chest”scroll down

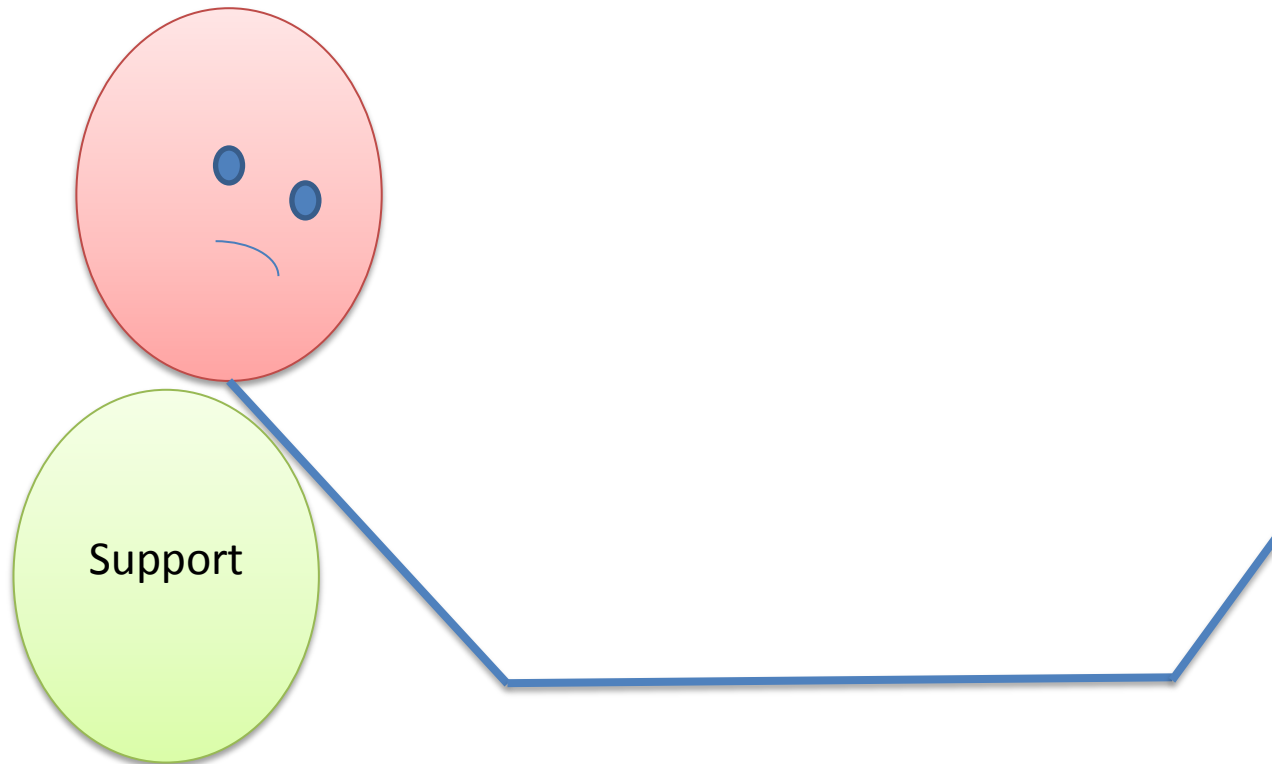

Position 1 – Shock Position.....

“if the face is pale, raise the tail”

Position 2 –

”if the face is **red**, raise the head”

Position 3 – Half sitting W position.....

“chest conditions, eg heart attack, angina ”
